

BEST Nursery Arlesey Autumn Newsletter

2023

This term, the children have all settled really well and built strong key worker bonds.

Comets-

Comets have enjoyed travelling around the world and experiencing many different cultural activities to link with the countries. They have also been trying food from each country. This has given the children lots of knowledge about the world around them.

Little Stars-

Little Stars have enjoyed experimenting autumn textures and developing their fine motors skills with fun and engaging activities such as leaf playdough printing.

Twinkles-

Twinkles have been exploring different sensory experiences. This has been through different scents, textures and shiny objects. This has enhanced their gross motor skills.

All rooms have spent the last few weeks doing Christmas crafts and activities.
